TECHNICAL SKILLS

- Python
- SQL
- Machine Learning
- Data Analysis
- Data Visualization (Pandas, Matplotlib)
- IT Support & Troubleshooting
- Networking (TCP/IP, LAN, WAN)
- Windows Administration
- Git & GitHub
- Microsoft Office Suite
- Problem Solving
- Communication
- Team Collaboration

TOOLS & TECHNOLOGIES

CERTIFICATIONS

- Udacity – Android Developer Fundamentals (2024)
- Udacity – Programming Fundamentals (2024)
- Udemy – Fundamental Graphics Design (2024)

LANGUAGES

- Amharic – Native
- English – Professional Working Proficiency

ERMIYA ZEWDU

COMPUTER SCIENTIST | IT SUPPORT SPECIALIST ASPIRING AI & DATA ENGINEER

Computer Science graduate with hands-on experience in IT support, networking, and system administration. Currently pursuing Intelligent Data & AI Engineering at Addis Ababa University through the Qiyas program. Passionate about Python, Machine Learning, Data Analysis, SQL, and building intelligent, data-driven solutions that create real-world impact.

PROFESSIONAL EXPERIENCE

JUNIOR IT SUPPORT

2024 – Present

Tewos Technology

- Provide technical support for hardware, software, and network issues.
- Troubleshoot and resolve system, application, and connectivity problems.
- Install, configure, and maintain Windows operating systems and drivers.
- Monitor system performance and ensure optimal functionality.
- Support users with Microsoft Office and business applications.
- Document issues and solutions to improve support efficiency.

NETWORKING INTERN

2023 – 2023

Commercial Bank of Ethiopia (CBE)

- Assisted in configuring and maintaining computer networks.
- Diagnosed and resolved network connectivity and access issues.
- Supported IT staff in infrastructure maintenance and troubleshooting.
- Gained practical knowledge of enterprise networking environments.

EDUCATION

INTELLIGENT DATA & AI ENGINEERING (QIYAS PROGRAM)

2026 – Present

Addis Ababa University
In Progress

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

2021 – 2024

Ambo University
CGPA: 3.38 / 4.00

PROJECTS

STUDENT PERFORMANCE ANALYSIS

Analyzed student performance data using Python, Pandas, and Matplotlib to identify key trends and factors affecting academic success.

Tech: Python, Pandas, Matplotlib, Jupyter Notebook

ISP NETWORK MONITORING TOOL

Built a simple network monitoring tool to check connectivity, ping, and system performance in local networks.

Tech: Python, Socket, TCP/IP

PERSONAL PORTFOLIO WEBSITE

Developed a responsive portfolio website to showcase projects and skills.

Tech: HTML, CSS, JavaScript, Netlify

“ Continuous learning, problem solving, and building intelligent solutions. ”
